Description

The Marset Discoco 53 pendant lamp emits most of its light downwards, a part of the light is also emitted to the side without glare. The lamp shade consists of 35 injection-moulded ABS discs attached to a chrome-plated ball inside the lamp. These discs act as reflectors, so that the lamp also illuminates itself. The pendant lamp has a diameter of 53 cm and is available in black/gold glossy, white glossy, beige matt and grey matt surfaces. As standard, the lamp is supplied with a cable length of 200 cm, which can be shortened if necessary. On request, the white version is also available with a cable length of 500 cm. LED Globe Retrofit lamps can be used as light sources.
