Description

The Marset Discoco C68 ceiling lamp mainly emits direct light downwards. Some of the light is also emitted to the sides. The 21 discs that make up the lamp shade serve as reflectors so that light is also emitted onto the lamp itself. The discs are made of injection-moulded ABS. This ceiling lamp has a diameter of 68 cm and is available in white glossy and black/gold glossy surfaces. Three halogen lamps or three LED Retrofit Globe lamps can be used as illuminants.
