Description

The Foscarini Dolmen Terra is a floor lamp leaning against the wall. It is supplied with a mounting bracket to be anchored to the wall. The lamp is in the surface aluminum. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as the light source, which can be regulated via a cable dimmer. The Dolmen Terra floor lamp emits uniform ambient light and light reflected from the wall. The aluminum body is cut out by laser and bent by a bending press. The lamp body is then anodised and painted with liquid transparent.
