

Arturo_Alvarez

Aimei

Technical details

Pays de fabrication	 Espagne
fabricant	Arturo_Alvarez
concepteur	Arturo Alvarez
année	2019
protection	IP20
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
matériel	acier, bois, verre
couleur de câble	transparent
réglage de la hauteur	hauteur déterminée
atténuation	dimmerable sur place avec commande gradateur de phase inverse
Puissance en Watt	8 W
LED	y compris
Flux lumineux en lm	960
La température de couleur en Kelvin	2.700 extra blanc chaud
canopée Dimensions	12 cm
hauteur totale	200 cm
Dimensions	H 80 cm B 80 cm L 80 cm

Description

The Arturo Alvarez Aimei pendant lamp is made of ash wood. Ash wood is a particularly flexible and versatile material. By means of handcrafted processes, curved and durable surfaces can be produced using this resistant and high-quality material. A spherical glass diffuser reduces glare and spreads the emitted light homogeneously through the spaces between the wooden rods into the room. The lamp is a total of 80 cm high. It has a length and a width of 80 cm each. The pendant lamp is attached to a transparent cable. The nickel-plated steel canopy has a diameter of 12 cm. Including the suspension, the lamp has a total height of 200 cm, the cable can be shortened if required. The light source integrated in the Aimei is an LED with a colour temperature of 2,700 Kelvin extra warm white, which can be dimmed on site with a trailing edge phase dimmer. The pendant lamp is also available on request with a colour temperature of 3,000 Kelvin warm white. A DALI dimmable version is also available on request.
