## Bolle LT P

### Oberfläche

- transparent
- blanc

### Technical details

<b>Pays de fabrication</b>	 Italie
<b>fabricant</b>	Vistosi
<b>concepteur</b>	Barbara Maggiolo
<b>année</b>	2003
<b>protection</b>	IP20
<b>Contenu de la livraison</b>	Leuchtmittel/Bulb
<b>aptitude de tension</b>	110 - 240 Volt
<b>matériel</b>	cristal verre, métal
<b>base/version</b>	G9
<b>Transférabilité</b>	sur la conduire
<b>Puissance (max. Watt)</b>	60 Watt
<b>Diamètre de l'ombre</b>	16 cm
<b>Dimensions</b>	H 19 cm

### Description

The Vistosi Bolle LT P is a table lamp with a lamp shade made of mouth-blown crystal glass. The glass is processed using the Balaton technique, in which air bubbles are enclosed into the glass. This creates a special texture which multiplies the reflections on the surface of the glass. In addition, a halo effect appears on the table on which the lamp stands. The lamp shade is available in crystal transparent and white surfaces. The lamp base is made of satin nickel-plated metal. Altogether the Bolle LT P is 19 cm high and has a lamp shade with a diameter of 16 cm. An on/off switch is integrated on the supply line. The table lamp can be operated with halogen lamps or LED retrofits.
