Description

The Serien Lighting Reflex2 Ceiling M300 emits its light onto a prismatic reflector surface inside the ceiling light. From this, the light is emitted into the room absolutely glare-free. The reflector is available in matt white, gold, silver or white. Depending on the reflector colour, the lighting effect of this ceiling light changes.

A powerful LED with a colour temperature of 2700 Kelvin extra warm white is included as illuminant. The Reflex2 Ceiling M300 ceiling lamp is available on request with 3,000 Kelvin warm white or with Tunable White technology. With Tunable White technology, it is possible to regulate the light from incandescent warm to cool white. On request, the ceiling lamp is also available DALI, 0-10 Volt dimmable or with Casambi module.
