### Description

The Serien Lighting Curling Suspension Tube Acryl clear S pendant lamp can be individually set in its total height during installation. Its clear acrylic shade has a diameter of 16 cm and is 6 cm high.

The Curling Suspension Tube Acryl clear S is available with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with dim to warm function. The version with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is often perceived as pleasant. When dimming down, the light not only becomes darker but also changes its colour temperature. The colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white. From the lamp series, a pendant lamp Curling Suspension Tube with a clear acrylic shade is also available from Serien Lighting, which has a shade diameter of 22 cm.
