

Knapstein

LINN-161

Technical details

Pays de fabrication	 Allemagne
fabricant	Knapstein
concepteur	Knapstein
protection	IP20
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
matériel	métal
surface	nickel
réglage de la hauteur	réglable en hauteur
atténuation	controlé gestuel
Puissance en Watt	51 W
LED	y compris
Indice de rendu des couleurs	>90
Flux lumineux en lm	5.815
La température de couleur en Kelvin	2.700 extra blanc chaud
remplacement des ampoules :	chez le fabricant / a l'usine
hauteur totale	106 - 188 cm
Dimensions	H 3,4 cm B 1,6 cm L 161 cm

Description

The Knapstein LINN-161 is a pendant lamp with a length of 161 cm. With the stoppers on the ropes it can be adjusted to its total height between 106 cm and 188 cm. It must not be adjusted when switched on. For height adjustment, the shells are pushed in at the bottom of the stoppers, then the lamp can be pushed or pulled to the desired height. If necessary, the wire ropes can be shortened on site. The pendant lamp has a matt nickel finish.

The LINN-161 pendant lamp emits its light upwards and downwards. The uplight and downlight can be switched and dimmed separately by gesture control. The sensor area for gesture control is located centrally on the lamp at the top and bottom. The lamp is switched on or off with a wiping movement of the hand. The lamp can be dimmed continuously by holding the hand in the sensor area for a longer period of time. A memory function saves the last selected light intensity and automatically adjusts it the next time the lamp is switched on. The collection also includes LINN pendant lamps with a length of 68 cm or 128 cm and with height adjustment by lifting or pulling the lamp itself (LINN-L). The LINN is also available in other lengths or finishes on request.
