

Knapstein

SVEA-60

Technical details

Pays de fabrication	 Allemagne
fabricant	Knapstein
concepteur	Knapstein
protection	IP20
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
Diamètre en cm	60
matériel	métal
réglage de la hauteur	hauteur déterminée
atténuation	controlé gestuel
Puissance en Watt	50 W
LED	y compris
Indice de rendu des couleurs	>90
Flux lumineux en lm	5.559
La température de couleur en Kelvin	2.700 extra blanc chaud
canopée Dimensions	24 cm
remplacement des ampoules :	chez le fabricant / a l'usine
hauteur totale	30 - 235 cm
Dimensions	H 3,4 cm Ø 60 cm

Description

The Knapstein SVEA-60 is a ring-shaped pendant lamp with a diameter of 60 cm. The light is emitted by this lamp both upwards and downwards. Its uplight and downlight can be switched separately and dimmed continuously by gesture control. The sensor area for gesture control is located centrally at the top and bottom of the lamp. The light is switched on or off by a wiping movement of the hand in the sensor area. To dim the lamp continuously, hold your hand in the sensor area for a longer period of time.

The SVEA-60 pendant lamp has a matt nickel finish. The pendant lamp by Knapstein is height-determinable between 30 cm and 235 cm with the stop sleeves on the underside of the ceiling canopy. By pushing in the stop sleeves on the ceiling canopy, the cables of the lamp can be pushed or pulled into the desired position. From the series, the SVEA-L60 is also offered with a stepless height adjustment by pulling or lifting the lamp. The lamp is also available with a diameter of 40 cm or 80 cm. On request, the SVEA is also offered in other lengths or surfaces.
