Description

The Bomma Phenomena Pendant Small Ball has a diameter of 40 cm. Including the suspension, it is 62 cm high. The spherical pendant lamp is made of mouth-blown crystal glass, for which clear glass is mixed with coloured glass in a complex manufacturing process. This ensures that the glass colour is particularly durable. Each glass is mouth-blown individually and is unique, so that the colour shade and intensity can vary.

This Phenomena pendant lamp is offered with the glass colours ferrari red and smoke-grey. The suspension of the lamp is available in silver or gold polished. The canopy is supplied to match the suspension in each case. The cable with a maximum length of 250 cm can be shortened if necessary, special cable lengths are also offered on request. The E27 socket of the lamp is operated with an LED retrofit. The Phenomena Pendant Ball is also available as a Large version with a diameter of 55 cm.
