### Description

The Bomma Shibari Pendant is a single pendant lamp that is suspended from several cables. This allows the position of the lamp to be changed as desired. The knot lacing of the suspension makes the lamp look different from every angle. The glass of the lamp is made of mouth-blown crystal glass and is therefore unique. Any small bubbles or irregularities in the glass are a characteristic feature of the traditional, handmade production of mouth-blown glass. The pendant lamp has a black matt powder-coated suspension. The Shibari Pendant has a diameter of 18 cm and is 70 cm high including the suspension. As standard, the cables have a length of 250 cm and can be shortened if necessary. On request, the lamp is also available with other cable lengths. The E27 socket of the pendant lamp is operated with a replaceable T30 LED. From the series, Bomma also offers chandeliers with three or five Shibari lamps.
