### Description

The Bomma Orbital Floor is a floor lamp with a height of 150 cm. It consists of a lamp rod and base made of metal and four mouth-blown glasses. On one side of the lamp, the glasses are in clear, on the other side, they are white on top and pink on the bottom. Lamp rod and base are in gold. Other glass colours as well as rod and base surfaces are available on request.

The glasses are made individually from mouth-blown crystal glass. Any small bubbles or irregularities in the glass are a characteristic feature of traditional glassblowing. During the production process, clear crystal glass is mixed with coloured glass. Each glass is unique, so the shade and intensity of colour can vary. Inside the glasses are two E27 globe bulbs through which the glasses are illuminated. The Orbital floor lamp can be powered by two replaceable LED retrofits.
