

Bomma

Pebbles Pendant Small Configuration 1-2

Version

- 1
- 2

Technical details

Pays de fabrication	 Tchéquie
fabricant	Bomma
concepteur	Boris Klimek
protection	IP20
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
Diamètre en cm	30
matériel	cristal verre, métal, Textile
couleur de câble	noir
longueur de câble	250 cm
réglage de la hauteur	hauteur déterminée
atténuation	dimmerable sur place avec commande gradateur de phase inverse
Puissance en Watt	17,9 W
LED	y compris
Indice de rendu des couleurs	>90
Flux lumineux en lm	2.680
La température de couleur en Kelvin	2.700 extra blanc chaud
canopée Dimensions	27 cm
Dimensions	H 79 cm Ø 30 cm

Description

This Bomma Pebbles Pendant Small consists of three differently shaped glasses. The bottom glass of this pendant lamp is always black. In version 1, the top glass is black and the middle glass is red. In version 2, the top glass is red and the middle glass is green.

If desired, the three glasses of the lamp can also be arranged in a different order. Each glass is made individually from mouth-blown crystal glass. Any small bubbles or irregularities in the glass are characteristics of traditional, handcrafted glassblowing. During the production process, clear crystal glass is mixed with coloured glass so that the glass colour is particularly durable. Each glass is individually hand-worked, so the colour intensity and tone can vary.

The metal suspension of the pendant lamp is powder-coated in matt black. The cable has a maximum length of 250 cm and can be shortened if necessary. Special lengths for the cable are also available on request. The integrated LED has a colour temperature of 2,700 Kelvin extra warm white. The Pebbles pendant lamp is also available from Bomma in other colour and shape combinations of the glasses. A lamp with any glass combination can also be created on request.
