| La température de couleur en Kelvin | 2.700 extra blanc chaud |
| Dimensions | H 150 cm Ø 1 cm |

Description

The Steng Ax-LED Pendant Lamp Vertical is suspended from the ceiling by a cable. There is a counterweight at the bottom of the lamp. The lamp is not connected to the ceiling via a power connection, but via a two-metre long supply cable with plug. A dimmer is integrated on the supply line. The suspension cable has a total length of 300 cm and can be shortened on site if necessary.

The Ax-LED Pendant Lamp Vertical is available in the surfaces satin nickel, glossy nickel and matt black with fine structure. The lamp has a length of 150 cm and is operated with an integrated LED that has a colour temperature of 2,700 Kelvin extra warm white. The light is emitted from the lamp homogeneously and glare-free indirectly onto the wall.
