

# Holtkötter

## Supernova GT

### Oberfläche

- aluminium
- laiton
- platine
- noir
- blanc

### Technical details

<b>Pays de fabrication</b>	 Allemagne
<b>fabricant</b>	Holtkötter
<b>concepteur</b>	Holtkötter
<b>année</b>	2023
<b>Projection en cm</b>	56,5
<b>matériel</b>	Aluminium
<b>réglage de la hauteur</b>	réglable en hauteur
<b>Puissance en Watt</b>	16 W
<b>LED #</b>	inclus
<b>Indice de rendu des couleurs</b>	>90
<b>Flux lumineux en lm</b>	2500
<b>La température de couleur en Kelvin</b>	2.200-2.850
<b>protection</b>	IP20
<b>Contenu de la livraison</b>	LED
<b>aptitude de tension</b>	230 - 240 Volt
<b>atténuation</b>	Variateur tactile sur pied de lampe
<b>Pied de lampe dimensions</b>	18 cm
<b>tête de luminaire masse</b>	18 cm
<b>remplacement des ampoules :</b>	chez le fabricant / a l'usine

### Description

With 2500 lumens and a colour rendering index of >90, the Holtkötter Supernova GT leaves nothing to be desired in terms of the light emitted. The lamp head, which can be rotated and swivelled in any direction, allows the light to be directed in any direction. The light rod of the Holtkötter Supernova GT can also be tilted by 15° - 60°. The touch dimmer with memory function on the base of the lamp allows the brightness to be continuously adjusted. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 2,850 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. If necessary, the LEDs can be replaced by the manufacturer. The Holtkötter Supernova GT is available in matt aluminium, anodised brass, platinum, white and black. In the anodised brass model, the luminaire rod is black; in all other models, the lamp rod and luminaire head have the same finish.
