### Omschrijving

The Ingo Maurer 24 Karat Blau T table lamp was designed by Axel Schmid in 2005. The shapely shade consists of the finest gold leaf incapsulated into transparent acrylic glass. The delicate metal rods hold the light shade together. The 24 Karat Blau T table lamp shimmers mysteriously blue which is a spectacular effect created by the gold foil as all other colours are absorbed. The golden shades of this table lamp come with four precut holes. With these you may hang the lamp at a cross out of rods in different angles. The red frame of the Ingo Maurer 24 Karat Blau T consists of metal forming a nice contrast.
