Omschrijving

The Byok Nastrone is a floor lamp equipped with high-quality LED technics, combined with two dazzle-free light zones which create the ideal working light. This is underlined by the well-designed joint technics, used with the Nastrone floor lamp.

The design is very nice as well, because this lamp consists of simple ground aluminium profiles. Different surfaces are offered: aluminum matt and black matt. The lamp is dimmed with gesture control. During dimming thanks to the Dim2Warm technology, the light takes on a warmer colour, changing the light colour of the LEDs from 2,700 Kelvin extra warm white to 2,100 Kelvin warm white.
