Omschrijving

The Foscarini Allegro Assai Halogen is an pendant lamp consisting of golden lacquered metal. The adjoining lines make the light float in balance thus creating an artful composition of light. This light will have an impression on the atmosphere both in the private area as well as in the public area due to its strong presence.

This Foscarini light is especially suitable for emphasizing as well as for underlining concepts as it is 136 cm in height and 136.5 cm in diameter at its widest place. The two lamps can be switched separately.

The Foscarini Allegro Assai Halogen is attached to the round canopy by means of three ropes. The length of these ropes can be shortened if needed.
