Omschrijving

The Stilnovo Tablet FL is a design aluminum floor lamp with metal base, white or black finish. Rectangular, slender and minimal in shape, it has two swivel modules in series with topLED sources and polycarbonate diffuser. Controlled at 350°, the light on each support can be directed in all directions or limited to defined portions of the room, acting as ambient light or for relaxation corners. A novelty from 2018 that enriches the family of floor lamps, expanding the range of solutions available and recognizable in the market thanks to the prestigious Red Dot Award 2018.
