### Omschrijving

For the Stilnovo Quad W, two square geometric shapes merge into a plastic structure at right angles. Shapes that fit like die-cast aluminum links house a LED source. The Quad W wall lamp, with its soft and slightly rounded lines, synthesizes the singularity of a plastic and dynamic element. The wall light becomes an aggregate part in multiple installations, for a very impressive perception of light. This wall lamp is dimmable on site and can also be dimmed via Smartphone App with an optionally available Casambi module.
