## Omschrijving

The Arturo Alvarez Tati TA06G is the largest wall and ceiling lamp in this collection. Its shade is 38 cm long and 38 cm wide. The wall lamp has a depth of 22 cm. Its lamp shade is made of a painted stainless steel metal mesh offered in the surfaces white and grey. On request, the lamp is also available in taupe and beige. This steel metal mesh is a translucent and flexible material, which is then coated with silicone to give it the desired shape and structure. The light is emitted softly and diffusely. This ceiling and wall light is available as E14 or LED version.

The E14 version has two E14 sockets and is operated with replaceable LED retrofits. The LED version is operated with an integrated LED and has a colour temperature of 2,700 Kelvin extra warm white. It is also on request obtainable with a colour temperature of 3,000 Kelvin warm white.
