### Omschrijving

The Arturo Alvarez Mytilus MY04 pendant lamp has a length of 60 cm and a width of 47 cm. It is 17 cm high and is made of lacquered stainless steel metal mesh. The material used is particularly resistant and is handcrafted through elaborate processes. A spherical diffuser distributes the light glare-free in all directions. The total height of the lamp including suspension is 150 cm, if required the transparent cable can be shortened. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as the light source. On request, the pendant lamp is available with 3,000 Kelvin warm white. The Mytilus MY04 can be dimmed on site with a phase dimmer. A DALI dimmable version is also available on request.
