Omschrijving

The Arturo Alvarez Mytilus MY04G pendant lamp consists of a lacquered and particularly resistant stainless steel metal mesh. The material is hand-worked during manufacture. This lamp has a length of 90 cm and a width of 74 cm. The height is 22 cm. Through a spherical glass diffuser, the lamp emits its light in all directions glare-free. The canopy is made of white painted steel and has a diameter of 14.2 cm. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as a light source. On request, the lamp is also available with 3,000 Kelvin warm white. The Mytilus MY04G has a total height of 150 cm, the cable can be shortened if required. The pendant lamp can be dimmed on site with a trailing edge phase dimmer. A DALI dimmable version is also available on request.
