Omschrijving

The Drop Linear S/09L from the Spanish lighting manufacturer Bover is an LED pendant lamp with nine individual pendants mounted on a black 180 cm long aluminium rail. This lamp is suspended from the ceiling with two ropes over a maximum length of 350 cm. The distance between the nine individual pendant lamps is 20 cm each. The lower edge of the lights is at a distance of 54 cm from the aluminium rail. The power connection for the Bover Drop Linear S/09L is located on a decentralised rectangular canopy measuring 22x11x4 cm. The glasses of the Bover Drop Linear S/09L can be removed/detached for replacement or cleaning. The nine lampshades each have a diameter of 10.7 cm and are 11.2 cm high. This LED pendant lamp is available in the shade colours transparent, matt white, green and blue. 13 different cable lengths are available on request. You can therefore choose the length of your lamp to suit your individual requirements. When ordering, please specify the required length/distance between the ceiling and the lower edge of the lamp under the item Order overview in the Order comments field.
