### Omschrijving

The Catellani & Smith Vi. F is a floor lamp with two metal rods. The semi-circular metal lamp head is fixed by a magnetic connection between the lamp rods and can therefore be rotated by 360 degrees, allowing the light to be directed to where it is needed. The lamp has a height of 189 cm and is available in white and black. The mounting of the lamp head is made of brass in both versions. The Vi. F by Catellani & Smith has a dimmer on the supply line. With a memory function, the last light intensity setting is saved and automatically reset when the lamp is next switched on.
