

Lichtlauf

Archie B

Technical details

Land van fabricage	 Duitsland
fabrikant	Lichtlauf
ontwerper	Christoph Matthias
jaar	2013
bescherming	IP20
Omvang van de levering	LED
voltage geschiktheid	230 - 240 Volt
materiaal	aluminium
oppervlak	Gepolijst aluminium
kabel kleur	transparant
kabellengte	200 cm
LED	inclusief
Schaduw diameter	5 cm
prestaties van het systeem	3 x 1 Watt

Omschrijving

The Archie B. by the German manufacturer Lichtlauf is a lamp that can create a play of colour shadows. Three aluminium spheres emit red, green and blue light; when brought together, a clear white light is created. When this falls on an object, the white light creates colourful shadows - a magical moment. Three precisely adjustable polished aluminium spheres rest on rubber rings, so the coloured shadows can be aligned very precisely and create atmospheric effects. The diameter of each polished aluminium ball of the Archie B. by Lichtlauf is 5 cm. The transparent cable, which serves as a supply line, is 200 cm long. This LED lamp has an on/off switch on the distribution box. Align the spheres in such a way that together they produce a large-area white light on the illuminated surface (e.g. wall or ceiling). The edges may be coloured. Place an object between the spheres and the illuminated surface and let yourself be surprised by the colour shadows.
