### Omschrijving

The Domus Stele LED floor lamp is 170 cm high. It is available in oak, core beech and walnut finishes. Its two-part lamp shade is made of high-quality Lunopal. This white transparent material was developed by the German manufacturer Domus for its lamp shades and is particularly environmentally friendly. It does not yellow and is reminiscent of fine Japanese paper. The steel base has a square shape. This Stele is operated with a powerful LED that has a colour temperature of 2,700 Kelvin extra warm white. On the back of the lamp, there is an integrated push button dimmer.
