### Opis

The Foscarini Caboche Sospensione Media is a pendant lamp with a diameter of 50 cm and a height of 19.5 cm. The shade of the Caboche is made of clear polymethylmethacrylate spheres. Through these spheres the lighting is radiated upwards and downwards. The interior white and satined lamp diffuser creates a diffuse lighting. The zigzag shape of the brackets diffuses the light to the maximum without shielding it. Once the spheres are attached, the mounting brackets are no longer visible.

The canopy of the Foscarini Caboche Sospensione Media is 16 cm in diameter and it consists of chromed metal. The light is offered in the colours transparent or grey. The Caboche Sospensione Media is held by three 320 cm long ropes which can be individually shortened. Also a version with a longer cable is on offer.
