Opis

The Byok Squadrina Pico Table Clamp convinces through its functionality as well as through its design. The stringent shaping and the purist optics are characteristic of the Squadrina Pico Table Clamp. Due to the rotatable and tiltable base joint and the upper universal joint, this lamp is very flexible. Moreover the upper aluminium profile is turnable on its own axis. With this clamp version, the lamp can be attached on the table, to give it a save stand. This lamp is dimmed with gesture control. During dimming, the light takes on a warmer colour, changing the light colour of the LEDs from 2,700 Kelvin extra warm white to 2,100 Kelvin extra warm white.

Four surfaces are offered for this lamp. This Byok lamp is the smaller version of the Squadrina Table Clamp. It is as slim as the large version but it is only 49 cm in height. The Squadrina Pico is also offered with a table base.
