### Opis

The Ingo Maurer Oskar is a multifunctional delicate table lamp. It is playful but highly functional and flexible at the same time. As it is thought to be used to illuminate shelves or to function as a bookend Oskar is constructively and versatile applicable. This lamp is Ingo Maurer's unique interpretation of the classical gooseneck. The lamp body consists of anodised aluminium natural while the gooseneck is made of tough metal. Due to a flexible metal arm it is possible to individually adjust the reflector of the Ingo Maurer Oskar. There is an on/off switch attached to the front of this lamp.
