### Opis

The Anglepoise Type 75 Lamp with Desk Clamp can be attached to all horizontal surfaces with a thickness of 0.7 cm to 6 cm. This clamp light has movable lamp arms, which can be readjusted at any time by the use of tension spring technology. This technology also ensures that the arms remain in any position. Like the arms, the lamp shade is made of aluminum and can be swivelled as well as rotated. The clamp lamp is available in alpine white and jet black. It is regulated with an on/off switch on the lamp shade. Compact fluorescent lamps or LED retrofit are suitable as light sources. A table base in the matching surface is included in the scope of delivery.
