

Marset

Theia P

Oberfläche

- czarny
- biały

Technical details

Kraj produkcji	 Hiszpania
producent	Marset
projektant	Mathias Hahn
rok	2016
ochrona	IP20
zakres dostawy	LED
napięcie przydatność	230 - 240 Volt
tworzywo	aluminium, metakrylan, metal
kolor przewodu	czarny
długość kabla	200 cm
ściemnianie	Ściemniacz dotykowy na głowicy oprawy
Moc w watach	11,3 W
LED	łącznie
Wskaźnik oddawania barw	90
Strumień świetlny w lm	1.019
Temperatura barwowa w stopniach Kelvina	2.700 extra biała ciepła
Średnica klosza	32 cm
świecznika Wymiary	30 cm
Dimensions	H 116 cm

Opis

The Marset Theia P floor lamp has a rotating lamp shade. This shade consists of two hemispheres, one vertical and one horizontal, which partly overlap each other. The vertically fixed hemisphere is white on the inside, and white or black on the outside. In the corresponding surface are also the light rod and the light base. This hemisphere is made of painted metal. The horizontal hemisphere is made of thermoformed smoked glass methacrylate. The complete shade can be rotated around its own axis via a handle on the light rod. The light is emitted by an LED in a hemispherical element in the centre of the shade onto the white inside of the vertical hemisphere and reflected from there. The lamp shade can be aligned so that the floor lamp can be used as a reading lamp or to create indirect lighting on the wall or an object. The Theia P can be switched and dimmed by pressing a push button dimmer on the lamp head.
