Opis

The Serien Lighting Reflex2 Ceiling S600 ceiling lamp emits its light onto a prismatic reflector, from where the light is reflected absolutely glare-free into the room. The reflector is available in matt white, gold, silver or white. Depending on the reflector colour, a different lighting mood is created.

Thanks to the integrated dim to warm function, the dimming behaviour of classic incandescent lamps, which is perceived as pleasant, is imitated when dimming. Thus, when dimmed down, the light not only becomes darker but also changes its colour temperature from 2,200 Kelvin extra warm white to 3,000 Kelvin warm white. The Reflex2 Ceiling S600 is also available on request with 2,700 Kelvin extra warm white or 3,000 Kelvin warm white. On request, the lamp is also offered dimmable with DALI, 1-10 Volt or Casambi module.
