#### Opis

The Serien Lighting Curling Suspension Rope Acryl clear / conical opal S can be individually set in height between 15 cm and 195 cm during installation. The light from this pendant lamp is emitted directly downwards and softly diffused all around by the reflector. This Curling pendant light is available in three versions: with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with Dim to warm function. In the lamp with dim to warm function, the dimming behaviour of classic incandescent lamps, which is perceived as pleasant, is imitated during dimming. As a result, the light not only becomes darker when dimmed down, but even changes its colour temperature. In this way, the colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white when dimmed. This Curling pendant lamp with an acrylic lamp shade is also available as a smaller lamp with a shade diameter of 22 cm.
