Opis

The Serien Lighting Curling Suspension Tube Acryl clear M emits its light evenly downwards as well as to the sides. Its lamp shade is 9 cm high and has a diameter of 22 cm. During assembly, this pendant lamp can be individually suspended in its total height.

The Curling Suspension Tube by Serien Lighting is available in three versions: with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with dim to warm function. When dimmed, the lamp with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. When dimmed down, the light not only becomes darker, but also changes its colour temperature. The colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white. In addition to this lamp, the Curling Suspension Tube Acryl clear S with a shade diameter of 16 cm is also available.
