#### Opis

The light from this Serien Lighting Curling Suspension Tube Acryl lamp is distributed directly downwards and softly diffused all around by the reflector. This is a pendant lamp with a chrome-plated steel tube. When mounting it, it is possible to set the total height of the lamp individually.

The Curling Suspension Tube Acryl clear / cylindrical opal M is available with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with Dim to warm function. The lamp with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. This means that when the light is dimmed down, it not only becomes darker, but its colour temperature also changes. The colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white. From the series, Serien Lighting also offers the Curling Suspension Tube Acryl clear / cylindrical opal S with a shade diameter of 16 cm.
