### Opis

The Knapstein LINN-68 is a pendant lamp with a length of 68 cm. It can be adjusted with the stoppers on the ropes in the total height between 106 cm and 188 cm. When switched on, it must not be adjusted in height. For height adjustment, the shells are pushed in at the bottom of the stoppers, then the lamp can be pushed or pulled to the desired height. If necessary, the wire ropes can be shortened on site. The pendant lamp has a matt nickel finish.

The LINN-68 can emit light upwards and downwards. Using gesture control, it is possible to switch and dim the uplight and downlight separately. The sensor area for gesture control is located at the top and bottom of the lamp. The light is switched on or off with a wiping hand movement in the sensor area. To dim the lamp continuously, the hand is held longer in the corresponding sensor area. An integrated memory function saves the last light intensity setting and automatically selects it the next time the light is switched on. The series also includes LINN pendant lamps with a length of 128 cm or 161 cm and with height adjustment by lifting or pulling the lamp itself (LINN-L). The LINN is also available in other lengths or finishes on request.
