### Opis

The Vistosi Damasco AP G wall lamp is made of mouth-blown crystal glass, which is covered with threads of melted crystal glass during the manufacturing process. The light is emitted into the room through the transparent glass diffuser, creating reflections on the surface of the lamp. The Damasco AP G is available in the glass diffuser colours crystal clear and amber. It is 37 cm high and has a width of 20 cm. Its depth is 25 cm. The wall lamp by Vistosi has an E27 socket that can be operated with halogen lamps or LED retrofits.
