Opis

The Bomma Dark & Bright Star Large is a pendant lamp with a mouth-blown glass and a diameter of 15 cm. Each glass is made individually from mouth-blown crystal glass and is therefore unique, so small bubbles or irregularities in the glass may occur. The concentric circles on one side of the glass create numerous light and shadow effects on the glass.

The Dark & Bright Star Large is offered in the glass colours white and cigar brown. The white glasses are made of clear glass and are opaque sand-cut. The cigar brown glasses are completely coloured. As each glass is finished by hand, the colour intensity and shade may vary. The pendant lamp is available with a suspension in brushed brass or anthracite. The canopy is delivered in the matching colour of the suspension. The cable has a maximum length of 250 cm and can be shortened if necessary. On request, the lamp is also available with other cable lengths. The G4 socket is operated with a replaceable LED retrofit bulb. The Dark & Bright Star is also available with a diameter of 10 cm as a smaller version or as a chandelier with up to 26 lamps on a canopy.
