Opis

The LDM Santo Tubo Tablo has a height of 55.8 cm. An LED with a colour temperature of 2,850 Kelvin warm white is integrated vertical in the upper part of the lamp rod, which emits its light into one direction. The part of the lamp rod with the light source can be rotated by 350 degrees. Thus, the light can be directed into another direction at any time.

The Santo Tubo table lamp is made of aluminum and is available in the versions polished aluminum, silver metallic, bronze as well as black and white matt. All surfaces except polished aluminum are powder-coated. The lamp base has a diameter of 17.5 cm and is delivered in the same finish as the rest of the lamp. A sensor dimmer is located at the bottom of the lamp rod, with which the table lamp can be switched and dimmed without touching it. A wiping hand movement in the sensor area switches the light on or off. To dim the light, the hand must be held in the sensor area for a longer period of time.
