### Opis

The Betec Cubus is a stylish LED lamp that is manufactured as a modern ceiling / pendant lamp made of silver anodised aluminum. Its lamp body is 120 cm long, 40 cm wide and 40 cm high. LEDs with a colour temperature of 2,700 Kelvin extra warm white are integrated within the U-profiles of the lamp body. The core brightness is distributed glare-free over a large volume. The unobtrusive lamp design harmonises both in classic arcades and in modern halls or archways. The lamp has an output of 105 watts. It can be dimmed on site with a trailing edge phase dimmer. The LEDs have a plexiglass cover and a service life of approx. 50,000 hours. As standard, the Cubus chandelier is supplied with a suspension pendant that is 120 cm long. Thus, the lamp is 240 cm long in total, although other lengths for the suspension pendant are also available on request. This lamp is supplied as standard with a colour temperature of 2,700 Kelvin extra warm white. On request, it is also available with other colour temperatures.
