Opis

The Domus Deco is a wall lamp with a white shade made of Lunopal that is held by two wooden elements made of beech. Lunopal is a high-quality shade material that was developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The environmentally friendly material is UV-resistant, washable and does not yellow. This lamp is 32 cm high, 13 cm wide and has a projection of 10 cm. The Deco wall lamp has an E27 socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
